In further execution of the said act, I have caused the Commissioner of the General Land Office to publish with this proclamation, a brief description of the mineral region in which these lands lie, and of the lands now offered for sale, which has been prepared from official 1500 LBS live geese feathers. numents and other means of information Given under my hand at the City of Washington, this twentieth day of November, Anno Demini one thousand eight hundred and JAMES K. POLK. James H. Piren, Acting Commissioner of the General Land Office.

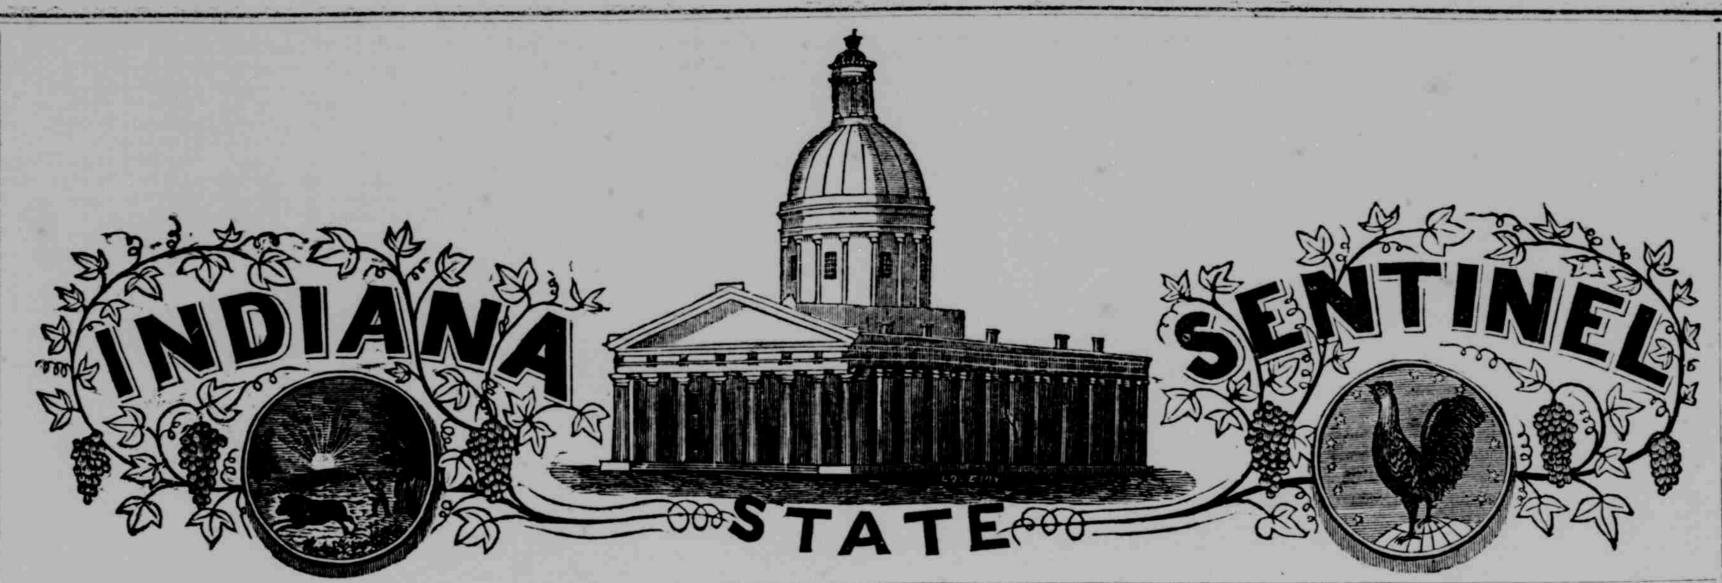

The lands embraced by the above proclamation of the President of the United States, contain many of the most valuable lead mines of the United States, contain many of the most valuable lead mines actually opened and worked, which have yet been discovered; and business. One from 14 to 16 years of age, steady, neat in from indications on the surface, and experiments made in digging, it is believed that many others equally valuable exist, and may be explored at a trifling expense.

From the great number of these mines, it would be im practicathe south by the Illinois State line; on the west, by the Mississippi river; on the north, by a line drawn nearly parallel to the south weeks from the Depot, a large and general assortment of Dry side of the Wisconsin river, at the average distance of ten or twelve Goods, Groceries, Hardware, and Queen ware; all of which we offer miles therefrom; and on the east by a meridian line passing through at prices that can't be beat. Call and see. H. J. & B. C. HORN, the sources of Sugar Creek, the whole district covering a surface equal to about sixty full townships. All necessary facilities for transporting the products to a market are afforded by the Mississippi and Wisconsin rivers, and their tributaries, the Blue, Grand Platte, Pekatonika, and other rivers by which the district is inter-

The above district was explored by Dr. Owen, the geologist of he State of Indiana , under instructions from the Treasury Departsentatives, passed the 6th of February, 1839. The able report of ing themselves in forensic disputations, adopted a Constitution, and this gentleman, published in 1844, with the charts and illustrations, organized themselves into a Society to be styled and known as the Monterema. Arrives Tuesdays and Saturdays, at -(Senate document, No. 407, 1st session, 28th Congress,) contains ecise information as to the location of each mine, and shows, Recorder's office of Marion county their Constitution, or articles of Caswtornsville-Arrives daily, except Mondays, at that in 1839, the lead mines of Illinois, Iowa, and Wisconsin, though | association, and in all other respects have complied with the above aly partially worked, produced upwards of thirty millions pounds named law. By order of the Society, A. J. STEVENS, of lead, of which those in Wisconsin, it appears, yielded the larger proportion; and further, that the whole district, if properly mined, would yield one hundred and fitty millions pounds per annum. Particular lists of the sections and parts of sections to be offered at said sale, have been furnished to the register and receiver at Mineral Point, together with maps on which the location of each tract is designated; all of which will be subject to the examination JAMES H.
